>With all due respect James, this is exactly what I'm talking about when I
refer to Mac as hosing the end user. the triple screen display is $4k and to
add two more monitors (which you will have to pay for) to an existing setup
is $2k . That's pretty tall cotton amigo. Add that to a 4k Mac and you've
broke the bank for a hardware configuration that will be obsolete in a year
(or sooner if Apple needs a new cash infusion.)

Digidesign anyone?
