from Paris if you choose the right spdif input or ADAT
input.

Better use a SPDIF cable to Pulsar spdif from Paris spdif out.

Let me know...

he 442 SPDIF out. I suppose I =
can
run another SPDIF cable from the Masterlink which is my temporary =
converter
to the SPDIF in on the Scope card.??? This would mean the Scope will =
be set to
slave with SPDIF in right?

Let me know...

Dimitrios
