Dale,

I like to do that too for a richer reverb. Just run both a
room and a plate in two aux busses and mix them
together. Don't get too loud with either and it will be sweet.
I also use a FreakQ in front of the plate to notch out some mids
more often than not. It carves a whole for the vocal or sometimes=20
snare.
Tom

"dale" <dalebradleycello@yahoo.com> wrote in message =
