---=_linux493a7a73--OK, the attachments are showing up as text - what do I need to do on this end to address that, fix the MIME types recognized? I added .zip files but it doesn't seem to have fixed it.

- KOK, a test from this end to see what happens in the "theproject" NG when ZIP files are attached.

Okidoki - I downloaded the package from the NG, then deleted your own (which was showing up as raw text) and re-upped it here as an attachment. Should work now.

Someone said that "We've seen the enemy, and he is us."

I'm pretty sure I found the cause of the buffer allocation errors. When I was working on the PSCL, I increased some buffers as part of my trying to figure out why the app was locking up on a multi cpu machine. I increased them a lot and never turned them back down. Sorry. :(

I recompiled the PSCL with the original buffer settings, which I think will

solve this once and for all.

Thanks everyone who tests these betas. I'm running the latest builds right now, and all seems well.

Cheers!

Mike
