-----=_NextPart_000_0199_01C814FC.EF8B5860--Yeah, Mona, baby. A woman after my own
heart. Very funny story. Holy Crap,
she's now with Verizon? Their service sucks in my experience. Better get the
hammer ready again.

Re: Paris is mostly gone and Cubase is the new mothership. Help me buy =
stuff.Hi Dedric,

I am starting to think the Apogee 16 ADATed into my existing
Scope ADAT ins would be super sounding converters. Maybe DJs

suggestion of the PreSonus FirePod as an additional 8 would be fine.
\$3500 later. . .=20

I'll get a better deal than that but still. Ouch.

Thanks for the heads up. =20
Tom

Now watch out for those Red Sox!

"Dedric Terry" <dterry@keyofd.net> wrote in message =
news:C342D0A1.DDA9%dterry@keyofd.net...

Tom - the MOTU units do have more I/O options than anyone else, but =
the converters supposedly aren't up to the level of other units - =
probably not bad though. Another option, if you don't mind putting a =
little more into it would be to go with an RME HDSP Digiface (PCIe) and =
3-lightpipe ADDAs (RME ADI8s, Aurora, Apogee, etc) - that would give you =
24 in and out.

Firewire is another option, but PCI/PCIe should give you better =
bandwidth for higher I/O, though firewire may be fine with 24 in and =
out.

Regards,
Dedric

On 10/22/07 9:53 PM, in article 471d719c@linux, "Tom Bruhl" =
<arpeggio@comcast.net> wrote:

I also need to up the analog ins in my Cubase rig to get it ready =
for

prime time. I wanted the Aurora but that is looking like \$4,000=20
after all is said and done. I guess that the Apogee is also at =
least

that much. Those are only 16 in/out. Not quite enough for my =
basics

sessions sometimes. Both are too much me to shell out and my heart=20
isn't in it for that much scratch. =20

Heres my Cubase rig as is:

- Cubase 2.01 (4.0 sitting in the box)
- AMD 2.4 dually (4.8)
- 3 GB Ram (haven't ran the patch yet) Anyone got that with =

instructions?

- 7200 IDE C:

- 7200 SATA Audio 16MB Cache 500GB
- 7200 SATA Sample sets 16MB cache 500GB
- PCIe dual head graphics
- 1 PCI UAD-1 card=20
- 1x PCI Scope Pro Classic with 16 adat in/out, MIDI, 1 SPDIF in/out, =
2 analog in/out
- Frontier Tranzport USB
- Wireless Mouse keyboard USB
- Cubase dongle USB
- backup audio drive USB
- 1 PCIe slot available
- 1 PCI slots available
- (Delta 66 not installed 4 analog in/out 1spdif in/out))

Here's what I need:

24 x A to D - D to A in/out. 96k at least probably PCIe compatible.
Thinking of the future here.

Features wise I like the Motu at \$1400 or less

<http://www.motu.com/products/pciaudio/24IO/body.html>

Already owning a Scope card leads me to this but not enough ins
and I think I will need a Z link attached to my card. \$1150 with Z =
link.

<http://www.infinitevortex.com/creamware/io/a16-ultra/>

Are there any other contenders? I'm not finding anything.

Thanks for your insite and all the previous help.

Tom
