brain, feeling some pain,
Ambulance you'd better, hit top speed,
E.R. ahead, trouble behind,
Doctor please be ready, to fix up my mind,

:DI can't be absolutely positive yet but removing these questionable plugs
does appear to have solved the problem.

I'll bringing up some of the first projects I did shortly they were
installed and see if they crash PAris...if not I've found the culprit

as an aside, Tim - Stripwave's developer said he might update his app in
the new year as a result the 24 bit wav file I sent causing a complete crash
of his version of stripwav...that would be nice

Don
