---=_linux48b1b3f4--Hi Gantt,

I'm sorry I've been slow responding. I actually wrote you a long email and lost it by crashig my PC in driver developemnt.

I worked on the mac plugs a few days ago for a bit, and with some help, got passed a major hurdle. But, my PARIS rig is down until I get the driver working because my past workarounds don't seem to like my new Phenom 9350. So, I have to put my attention there for the time being.

I'm sorry that I haven't been able to deliver yet.

All the best,

Mike

I assume you no longer eat or sleep.

How do you find time to sustain yourself?

Thanks for all your hard work!

You are doing all us Paris persons an inestimably huge service by being willing to attempt to port these FX over to our obsolete DAW. Compounded by the problems of porting obsolete FX for an obsolete system onto an obsolete platform and you begin to qualify for Software Sainthood!

Thanks!
