> I have to have a fast network connection for the way I work. If you don't
need high speed networking, the 10/100 controller on the A7V8X-X will give
you adequate networking capabilities, just not super fast. If you plan on
using wormhole in the future, I would go with the more expensive A7V8X-LAN
mobo. If not, the 10/100 connection on the less expensive one should be
fine.

he way to go.

BTW - total cost for this setup was:

\$950 - projector
\$ 40 - screen material (w/ extra to put up a 50" screen elsewhere in
the house)
\$270 - Yamaha receiver
\$150 - Zenith DVD player
\$220 - 3 surround + 1 center channel speakers
\$120 - 15" subwoofer
\$100 - cables
\$ 25 - case of beer to cap off the experience

\$1875

- Paul Artola
Ellicott City, Maryland
