>Hi Dimitrios,

We have a deal. I have been wondering about this modification you have done so I would like to trade for the modified A8oT card.

My e-mail address is:

animix@animas.net

I will send you the original HD along with the graphics card, CDR drives, mobo, onboard RAM

that is in the system and of course, the DSP cards and breakout box for the Core 32 system. The drivers for the Lexicon Core 32 are tricky to load so it will be good to have the original HD. This is a SCSI system so I will also include all of the ribbon cables that you will be needing.

It was nice talking to you.

;o)
