ckage, which is about three times as
expensive. Even more dramatic... Izotope is offering a $349 version that

at the $199 price point.
Demo available.

GeneMagix is going to release a new restoration suite soon (something like
Samplitude Master Restoration) that should be competitive. Competition
is good!

 From the article: "Spaces will allow you to set up different desktop
environments, making clutter a thing of the past. However, because
Spaces has never appeared in an OS before..."

Nice article, but that quoted bit is wrong. I've used similar features
in Linux and BeOS. I'm very glad Apple is fi
