excelnt shape.

The Control 16 is pretty beat up and one of the buttons sticks.

I works.

The 442 and IF 2 are in good condition.

I'm looking for someone who has all the drivers and such.

None of the original packaging.

mattmercado@comcast.net For some reason the post said it was the year 2000.

I just posted it yesterday, its April, 19th 2006.

Its now on Ebay.

I'm selling it as and EDS 1000, works great!

The rest is a bit beat up, but still works and I'll throw it in.

Here is the link.

each includes:

1-MEC, 1-8in card, 1-8out card, 1-ADAT card, 1-control 16, 1- EDS1000. Manuals, Paris 3 software, XP drivers etc. included.

#1 system is in near new condition, the other slightly used.

They both will be posted on EBAY by tommorrow 4-20.

If you have any questions feel free to contact me at my email address. Hi Steve, I'd be interested in the C-16 with cable. Let me know how you prefer to go about it, i.e. Western Union transfer? Shipping to Europe, etc.

Best regards

Matthias
