I tuned into a late night bluegrass show not too long ago and spotted a guy playing banjo with only 1 finger (from the top side). I've heard many banjo players and this guy could hang with any of them.

I play guit and banjo, but have started using fingerpicks with the guitar. It was a little weird at first but I can do things with the finger picks and I cannot with a standard plectrum. I mean high speed stuff.

Music comes from your heart. I'd learn to play with my toes if I had to.

Cancer sucks. I hope everything goes well.
