n drawings what good is it? You are 100% right but look at the great gas prices it got us? And now days  
you can almost get by on \$120k/year if you don't have kids and don't fully fund your retirement and don't do debt. What a joke economy and government we have here.

I'm working with kids in their 20's with 100k in debt making 30k. They are so screwed. he just need to [plug this in
