-----=_NextPart_000_00BE_01C823D7.E451DC50--Hey Tom !!

All my emails bounce back when I send to you !

So here are my suggestions !

Under scope main window you click SET and then from popup you choose Samplerate.

Then a window pops up that indicates your cards and what sampling rate to choose.

You can have it slave or master.

Is your Paris at 48khz ??

You can slave Pulsar
